One of the Principal Actors in Neck or Nothing Cannot Attend.

Special to the TIMES.]

NANAIMO, B.C., April 10.—In consequence of the illness of Mr. A. A. Richardson's sister, the former is unable to act in "Neck or Nothing," and as he is one of the principal actors, the visit has been postponed.

THE HUSTEDE CASE.

Finally Settled by the Owners Receiving $400 Indemnity.

OTTAWA, April 10.—The owners of the German bark Hustede have been awarded and accepted $400 from the Imperial Government for the detention caused by the vessel in Esquimalt harbor more than a year ago through the action of Admiral Heneage.

It will be remembered that the Hustede was towed out of Constance Cove by order of the admiral and the $400 compensation is the result of an investigation asked for by the owners of the Hustede.

A Steamboat Captain Fined.

Special to the TIMES.]

VANCOUVER, April 10.—Steamboat Inspector Thomson this morning prosecuted Captain Stalker, of the Union S. S. Co.'s steamer Senator, for an infraction of the Dominion law in reference to carrying passengers on steamboats without a duly certificated engineer. The case was fully proven, and a fine of $100 imposed.

The Royal Labor Commission.

LONDON, April 10.—In the House of Commons this evening, W. H. Smith, Government Leader, announced the following as the list of names of those gentlemen who will constitute the Royal Labor Commission Lord Hartington, Earl of Derby, Sir Michael Hicks-Beach, Sir John Yorst, Right Hon. A. J. Mundella, President of the Board of Trade under Mr. Gladstone; Right Hon. Henry M. Foster, M.P.; Rt. Hon. L. H. Courtney, M.P.; Sir Edward J. Harland, M.P.; Thos. Henry Bolton, M.P., chairman of the Caledonian Railway Company; Gerald Wm. Balfour, M.P.; Jesse Collins, M.P. and labor advocate; Thos Burt, M.P.; Professor Marshall; William Abraham, M.P.; Sir Lewis, Manager of the Bute docks; Mr. Ismay, Director of the White Star Steamship Co.; Mr. David Dale; Mr. J. Levesy Cotton, manufacturer, of Tunstall; Messrs. Plimsoll and Madesty, Operatives and Cotton Spinners; Thos. Mann, well known as an English labor leader; G. Drew, Secretary of the Board of Conciliation of the Iron and Steel Trade; Mr. Hewlett, Manager of Wigan Coal and Iron Co.; Mr. Tait, Chairman of Trade Council of Glasgow; Mr. Austin, Secretary of the Irish Democratic Labor Federation; and Sir Frederick Pollock. Upon the instant of the conclusion of the reading of the list, Justin McCarthy, Anti-Parnellite leader of the Irish National party, made a motion that the House adjourn, in order that he might call attention to a matter of urgent public importance, the omission from the list of gentleman who were to serve on the commission of the name of Michael Davitt. McCarthy also said he wished to interrogate the Goverument as to its reasons for such omission. The Speaker refused to entertain McCarthy's motion to adjourn, it being supported by only twenty-eight members of the house. George Howell, Gladstone Liberal, then gave notice that he should call attention to the same question, and would move a resolution in connection therewith when the vote was taken on the matter of providing funds for the expenses of the commission.

MCKEE MURDER TRIAL.

JUDGE MADDOX DEMANDS ORDER AND ORDER IS KEPT.

He Threatens to Jail Anyone Found With a Pistol on His Person—The Attorneys Were Not Interfered With in Consequence—Other American News Notes.

NEW YORK, April 10.—The Sun's Rome, Ga., special says: Judge Maddox this morning took a hand in the Frey-Waters-Deitz affair, growing out of the McKee murder trial. When the court was called to order, at 8 o'clock, there was a large attendance, among those present being the brothers of Mrs. Dietz and the Waters boys. Every one expected that Frey would make some remarks about the note received from Dietz, but he had nothing to say. Judge Maddox, however, had this to say and said it in a vigorous manner: "If any man is detected in this court with a weapon on his person, either concealed or exposed, it will cost him just $1000, twelve months in the penitentiary and six months in the chain-gang. If any man in this court room knows of any one having a weapon he can now step forward and make affidavit to that effect and I will suspend this case right here and try the man who has the pistol the first thing we do. I want to say further, that if any member of this bar is interfered with in any other way, it will cost the person who interferes with him $100 and 20 days in the chain-gang. That's all I have to say, and now let anybody who wants to interfere with this court begin right now." Not a word was said by any one, and the trial of the case proceeded.

A Cute Pair of Swindlers.

ST. LOUIS, April 10.—The police have unearthed a unique system of swindling that has been practiced in St. Louis and other western cities by a gang of San Francisco confidence men. The arrest of Henry Hoffman and Bert Braymer on Wednesday will involve, the police say, the proprietor of the wealthiest pawnbroker shop in San Francisco, and a lawyer at Kingfisher, Oklahoma. The Hoffman and Braymer system is to play the dissipated youth, who has to leave home on account of some "racket," and to present to well-known and rich persons, pawn tickets bearing the name of Ed. H. Lichenstein, of San Francisco, for costly articles and ask for a loan on the tickets, which is generally forth coming. Letters found on the two men indicate that the gang is well organized and well supplied with pawn tickets. An unmailed letter found in Braymer's pocket addressed to Lichenstein, indicates that he is concerned in the swindle. Kester, the Oklahoma lawyer, is concerned in so far as he has advised the members of the gang of the movements of the others.

The Thief Caught.

NEW YORK, April 9.—Thomas Regan had charge of Lucky Baldwin's stable of race horses last December at Morris Park and suddenly left without giving notice. Prior to his departure Costa Rica and Lyero, two valuable racers, were missed, and it transpired that Regan had sold them for $1700 and fled with the money to Havana. Baldwin, who was in California at the time, put himself in communication with his lawyers, Howe & Hummell, who traced Regan and succeeded in securing his arrest at Montezuma, Ga. A warrant was issued and Regan brought here by Sheriff Walters. He was taken before Justice Silliaman at White Plains yesterday and committed without bail to trial.

A Copper Trust.

PHILADELPHIA, Pa., April 10.—The Record says that the formation of a gigantic copper trust was begun in this city yesterday, which in extent and importance promises to eclipse even the sugar trust. The scheme was practically consummated at the meeting of the plumbers' Copperware Association. At the Lafayette Hotel it was claimed that there has been a ruinous cutting of prices lately, so much so that plumbers' copperware had been selling at a loss.

Took the Wrong Track.

BRIDGEPORT, Conn., April 9.—This morning a freight train on the Housanac Railway, while being backed down into the yard, took the wrong track, and crashed into some empty passenger coaches, which were driven through a board fence into Gould street, and striking a brick tank house of the Consolidated road, seriously damaged it. A woman, name unknown, who was crossing the street, was knocked down and instantly killed.

The Mail all Ready for Delivery.

NEW YORK, April 9.—The German steamer Havel arrived here this morning with the mail, numbering 52,500 pieces, already sorted and ready to be sent out by carriers. The mail was assorted on the way over by ocean postal clerks, assisted by the German post-office men. The Havel is the first steamer to bring mail under the recent postal agreements between this country and Germany.

The First Train Through.

PORT HURON, Mich., April 10.—The first train passed through the great international tunnel yesterday afternoon at 5:30. The train entered from Canada and passed through to the American portal and returned. The approaches will be completed for traffic in about two months.

Insane Lady Commits Suicide.

CHICAGO, April 10.—Mrs. Bertha Sterns, of 68 Johns place, temporarily insane, drowned herself in the artifical lake in Union Park last evening. A boy walking through the park this morning discovered the body. Mrs. Sterns was 26 years old and the mother of three children.

Closing Pool Rooms.

SAN FRANCISCO, April 10.—It was expected the pool room test case would be decided to-day, but it was announced during the week that it would not be made till Monday. It is understood that the decision will sustain the ordinance closing the rooms.

Mrs. Besant.

NEW YORK, April 9.—Mrs. Annie Besant, theosophist and a co-worker of the late Charles Bradlaugh, arrived here this morning, on the City of New York. She will deliver lectures throughout the country.

BONANZA GOLD FIND.

A Rich Vein With Gold Projecting as Big as Wheat.

MONTREAL, April 9.—One of the richest mines found has been opened up at Marmora, Ontario. Free gold as big as wheat has been found projecting through the rock. The vein is 20 feet wide, between walls 15 feet deep, widening out as they go down.

FROM OTTAWA.

Peter White Gets the Speakership—Carling to Become a Senator.

Special to the TIMES.

OTTAWA, April 10.—Peter White, of North Renfrew, has been offered and has accepted the Speakership of the Commons. Senator Allan will likely retain the Speakership of the Senate. It is understood Carling will be called to the Senate and retain the portfolio of Agriculture.

SHE WAS NOT INSANE.

A Young Lady Incarcerated by an Avaricious Sister.

NEW YORK, April 10.—Miss Anna E. Dickenson, who has been for some weeks at the hospital at Danville, Pa., and later at the quiet retreat known as "Intergrins," at Goschen, came to New York last night, and went to the Astor House. Miss Dickenson accuses her sister of illegally committing her to an insane asylum. Dr. Seward, who has had Miss Dickenson in his care for a week past, says, she was entrusted to his care by Miss Susan Dickenson, who advanced the money to pay her board, and that he took charge of her thinking her insane; that he found she was not mentally unbalanced, and that she is as well as she ever was. He has talked with Miss Dickenson on every subject, and finally decided to come to New York with her, and let her case be known to the public. Miss Dickenson says that after incarcerating her illegally, Susan misled those of her (Anna's) friends, who wrote to her for facts, and has received pecuniary assistance from them, which she has retained for herself.

THE NEWFOUNDLAND TREATY.

Fishing Products Admitted Free Into the United States.

WASHINGTON CITY, April 9.—The proposed treaty with Newfoundland, the suspension of negotiations regarding which was ordered from Great Britain because of the protest of the Canadians, has been made public. It provides that United States fishing vessels entering Newfoundland waters shall have the privilege of purchasing bait on the same terms as Newfoundland vessels; also trading without any charge other than the dues levied on Newfoundland vessels. The products of the fisheries may be admitted free into the United States, also the packages in which they may be carried. Green codfish are excepted from this. Duties are also provided on flour, rice, salt, oil, meats, etc., into Newfoundland, and United States agricultural implements and machinery, raw cotton, broom corn, gas engines, printing presses and types may be admitted free when imported from the United States.

This convention was to take effect as soon as the laws required to carry it into operation should have passed on both sides; to remain in force five years from the time it came into operation, and, further, until the expiration of twelve months after either of the high contracting parties should give notice to the other of a wish to terminate.

MISS MINNIE KNIGHT

Tells Her Version of the Story of Her Marriage.

NEW YORK, April 10.—The elopement and marriage of Ed. Faustre and Miss Minnie Knight, of this city, the discovery that Faustre was probably a bigamist, his flight to Canada, and the news of his latest escapade in the west, have been sensational events here, where the wife had been so well and prominently known. Yesterday she took a hand in the sensation producing business, and said, "In regard to the Knight-Faustre story which has been so prominent in the newspapers of late, I now think it is time the other side of the story be heard. Because I had some respect for the name I once bore and the man who, although my father, has acted in anyway towards me but as a daughter should, I have kept quiet, thinking that as I knew all was right, and my husband was true, that time would prove it, and the world could see how matters stood. But as Mr. Knight (my father) has done the worst he could, and been untrue to every promise he made, my respect for him is gone, and I shall now expose him and tell the true state of affairs. I see from the papers that Mr. Knight has spread the impression that I have been deceived by Ed. Faustre, my husband, but such is not the case, as he told me all about this illegal affair before I married him. Mr. Knight, in company with two constables, forced me from Fingal against my will. I want it understood that Mr. Faustre's people are very respectable and do not keep a low saloon, but a hotel. I did not find out until yesterday how my father has been deceiving me, by going to the governor, employing detectives and doing all he could by false statements to try and bring up a case of bigamy against my husband. My husband and I have been hearing from each other during the time of our separation and whatever comes we will be true to each other."

AFFAIRS IN EUROPE.

REV. DAVIS' REFUSAL TO TOAST THE QUEEN AND THE RESULT.

Soldiers on the Frontier—Austria in Want of a General—Grand Duchess Elizabeth Regrets Being Converted to the Russian Faith—The Kaiser Misled—Briefs.

LONDON, April 10.—Dissenters in all parts of the country are writing indignant protests to the newspapers against the refusal of the Rev. Mr. Davis to offer the toast of the Queen. The substance of the letters is that the nonconformists are not surpassed in loyalty by Churchmen or any other religious denominations, and that the Rev. Mr. Davis is representing only himself in his demonstration against the royal family. Since the banquet at which Mr. Davis took this peculiar stand he has been boycotted by his congregation and a movement is on foot to compel him to resign. The authorities will take no notice of his utterances. The invariable custom of the royal family is to ignore any attack in words, whether vile or simply disloyal. In this respect the English royalty is entirely different from that of the continent, where criticisms of ruling families are met with prompt and exemplary punishment. Libels on the Queen, which would have lead to criminal proceedings if published against a private individual, have been allowed to pass unnoticed. Personally she never hears of them, and it is etiquette in polite society to pretend to never have heard them. These periodicals have a large circulation. Sir George Trevelyn is credited with the expression that there is more loyalty in Great Britain than anywhere else in Europe for the reason that it is not compulsory.

AUSTRIA TO MASS 350,000 MEN.

A Vienna dispatch says that the assurance of the official press as to the prolongation of peace does not agree with the bustle in military circles. The war office presents a warlike appearance, and the movements of the troops are going on all over the empire, the chief direction being toward the Gallician frontier, where it is expected that Austria will have 250,000 men massed before the end of May, to watch the movements of the Russians. The Austrian authorities are said to be deeply perplexed for a general, there being no man of marked military reputation high in command, while it is feared that the rapid promotion of Count Hartman of Bulgaria might give offense to other commanders. The official press is correct in saying that there is no official evidence that the peace of Europe will be broken; at the same time the three powers, Germany, Austria and Russia are getting troops in convenient reach for hostilities, should occasion occur.

HER CONSCIENCE TROUBLES HER.

Five interesting letters come to light bearing upon the conversion of Grand Duchess Elizabeth, wife of Grand Duke Sergius, to the Russian church. It appears that the late Princess Alice, daughter of Queen Victoria and mother of Elizabeth, wrote before her death expressing the hope that German Princesses married into Russian families would not change their faith, and adding that "the Russian custom of obligatory conversion on the occasion of such marriages always seemed to me too intolerant and narrow-minded in the light of modern ideas." The Grand Duchess, since her alleged conversion, has declined in health so rapidly as to alarm her family, and it is believed that her conscience is deeply affected by what she has done.

ALLOWED TO TRADE IN ALSACE-LORRAINE.

The government of Alsace-Lorraine has so far relaxed the passport regulations as to permit French farmers to come in with poultry and farm produce, provided they cross the frontier into France again before dark, after undergoing inspection by a German officer. If the peasants have paper or pencil or anything to take notes with they are obliged to surrender it and they are not permitted to make purchases except of food in Alsace-Lorraine. As to all others, the restrictions remain in full force.

THE KAISER MISLED.

According to a Strasbourg correspondent whose identity is concealed, the Kaiser was deceived by the deputation which visited him, as to the loyalty of the annexed provinces to Germany. The correspondent states that the people are as deeply as ever attached to France and await with impatience the first opportunity to show their devotion to that country. The writer also states that in the event of war, Germany would find the Alsacians had not forgotten to fight since 1870.

Commission Meets October 12.

OTTAWA, April 10.—Almost simultaneous with return from Washington to-day of Sir John Thompson and Hon. J. E. Foster, came a dispatch to the Governor-General from Sir Julian Pauncefort, announcing that Mr. Blaine had fixed Monday, October 12, as the date for the reciprocity conference. This was acceptable to the Governor-General, and the delegates will therefore duly present themselves at Washington on the day appointed.

The Reciprocity Negotiations.

WASHINGTON, April 10.—The reported postponement of reciprocity negotiations with Canada until October 10th is well grounded. Secretary Blaine, though willing, is in no hurry to discuss the question, and would prefer holding off until the election of a more liberal party in Canada. Blaine also holds that the fisheries and Bearing sea questions, which are still pending, should be discussed before or at the same time as the reciprocity question.

The President to-day appointed Edwin Thath collector of customs for Alaska.

PROVINCIAL LEGISLATURE

MINERAL BILL READ A THIRD TIME AND PASSED.

160 Acres the Smallest Amount of Land Obtainable—Mr. Kitchen's Motion Lost by a Vote of 10 to 15—Second Reading of Bill to Recompense the Commission.

THURSDAY, 9th April, 1891.

The House was called to order at 2 o'clock. Prayers by Rev. L. M. Rugg.

Hon. Mr. Davie introduced "An Act to further amend the Provincial Voters' Act," which was read a first time.

The House went into committee of the whole on the message of the Lieut.-Governor on the Constitution Bill, Mr. Brown in the chair, and subsequently reported the bill to the House. The bill increases the indemnity to members from $400 to $600; also makes the electoral district of Victoria City coterminous with those of the municipal limits, and defines Victoria electoral district and Esquimalt electoral district. The report was adopted, and the bill read a first time.

The report on the Mineral Bill was adopted, and the bill read a third time and passed.

On the motion to adopt the Land Bill, Hon. Mr. Beaven moved to place all unsurveyed lands at the price of $5 per acre. There should be, he said, one uniform price, and though not sure that $5 was the proper price, he moved the amendment for the purpose of bringing the question to an issue. He believed that the system of grading of lands was liable to a great deal of abuse.

Hon. Mr. Vernon contended that land varied in quality, and defended the system of making different prices, according to the class of land.

Mr. Martin also opposed the amendment.

Mr. Hunter thought it would even be better to elimina.e the prices of land from the bill altogether, and allow the Government to get the best price they could. He did not believe in selling land worth $50 for $5, and believed in the Government having a free hand in the matter; it would be better for the revenue from land sales.

The amendment was lost.

Hon. Mr. Beaven moved an amendment to make the smallest amount of land sales 160 acres, and not 80 acres. If people were allowed to pick out small pieces here and there, they would be enabled to pick out all the good land and leave the poor.

The amendment was carried.

Mr. Brown moved an amendment to section 7, which provides that the Government can grant land "for promoting immigration or other purposes of public advantage, not being bonus for the construction of railways," by striking out all the words after bonus. Lost.

Mr. Sword moved to amend section 7 by adding after "railway" the words "and by adding at the end of the section the words 'provided, however, that any grant for purposes other than the encouragement of immigration shall not exceed the value of $5,000, and shall revert to the Crown if used for other purposes than those specified in such grant.'"

Hon. Mr. Beaven said he had understood that an application had been made for a part of the ground on which the Government buildings stood.

Hon. Mr. Robson said no such application had been made that he knew of. Indeed the Government had discussed the propriety of recovering parts of the reserve that had been formerly alienated from it. He did not approve of the amendment. The Government's hands should not be tied.

Hon. Mr. Beaven said if a Government alienated land wrongfully, the remedy of turning them out of office would not recover the land to the Province. The amendment was lost.

Hon. Mr. Vernon moved to amend section 10 by providing that tenders may be invited by the Chief Commissioner of Lands and Works for the leasing of land for timbering purposes, the surveys of which had been made by the Government, and the person paying the highest cash bonus shall, after paying the cost of such survey, be entitled to such lease, subject to the provisions of the Land act. Carried.

Mr. Kitchen moved that "Notwithstanding anything in any act contained, any person who is entitled to record or pre-empt any land under the provisions of the 'Land act' shall be entitled to record or pre-empt land suitable for agricultural purposes, and not containing more than 20,000 feet of milling timber per acre on such land when there is an area of not less than 40 acres of such land in one block in any timber lease, and shall be entitled to cut and take for his own use, but not for sale or barter, such timber for posts, rails, and firewood as he shall actually require for use on the land so recorded or pre-empted; and shall be entitled to cut, for the purpose of clearing the said land, any timber that is not valuable for milling purposes; and shall have the right of passing and repassing over the lands in such timber lease, without being deemed a trespasser. Provided always, that such person shall not commit wilful waste or damage in passing over such lands, or in cutting such timber."

Hon. Mr. Robson opposed the amendment on the ground that the result would be to render worthless timber leases. Besides, the danger from fire would be greatly increased by settlers going in on timber leases. While protecting settlement in all reasonable ways the timber industry should not be forgotten. He thought 80 was a small enough amount to name in the amendment and hoped the amendment would not be pressed in its present form.

The amendment was lost on the following division:

For — Semlin, McKenzie, Sword, Kitchen, Cotton, Milne, Beaven, Foster, Keith, Booth—10.

Against — Smith, Brown, Baker, Davie, Vernon, Eberts, Stoddart, Hall, Pooley, Turner, Croft, Hunter, Rogers, Anderson, Fletcher—15.

The adoption of the report was allowed to lie over for the purpose of bringing in some new amendments.

The House went into committee on an act for the Protection of Cattle, Mr. Croft in the chair.

This bill was to render all railways liable for stock killed on their lines, unless the lines were fenced. The committee reported the bill complete with amendments.

The House went into committee on the B. C. Railway bill, Mr. Grant in the

LOYALTY TO THE AMEER.

Tropical Africa Settled by Overflow from British India.

LONDON, April 10.—A Calcutta dispatch states that there is no foundation for the report that the Ameer of Afghanistan shows signs of disloyalty. The Ameer is in receipt of a large annual subsidy from the vice-regal government, which subsidy has lately been increased, and it is believed that if he is displaying any uneasiness it is due to the apprehension of the encroachments of Russia, and to the attempts of Russia to excite discontent among the Afghan border tribes. From these, however, the Ameer has but little to fear, as the terrible severity with which he put down the last rebellion about a year ago has crushed the spirit of insurrection. The British Government has on hand a scheme for settling the tropic regions of British Africa with the overflow of British India. The Sultanate of Vitu in East Africa is to be the first place opened to this kind of settlement, and the British Indians permitted to emigrate there will be chosen with particular reference to their ability in case of necessity for military service. Land is to be apportioned to the emigrants, who will also receive aid in providing themselves with the requisites for agriculture. Vitu, is a rich country, and owing to the recent outbreak of the natives, followed by their subjection, the whole country has been confiscated for the uses of emigrants, such portions being reserved for the natives as the government sees fit to allot. It is believed the colonizing of parts of South Africa, not fitted for European population with British Indians, will establish English rule there on a firm and lasting foundation.

April showers may be the forerunner of May flowers, and they are also certain to bring with them cold in the head, which if neglected, develops into catarrh, perhaps into consumption and death. Nasal Balm never fails to give instant relief, and will permanently cure the worst case of catarrh if faithfully used. Sold by all dealers.

THE LEGISLATURE.

(Continued from page 2.)

Mr. This bill is, as the Attorney-General said when introducing it, a further bill to the act for the Protection of Cattle and provides for the fencing of railways. It was reported complete with amendments.

The House went into committee on the bill to amend the act respecting the Union of certain Methodist Churches in Canada, Mr. Booth in the chair, and it was reported complete without amendments. The report was adopted, the bill read a third time and passed.

Hon. Mr. Davie moved the second reading of the act to Prevent the Spread of Contagious Diseases among Horses and other Domestic Animals. In doing so he remarked that a Manitoba cattle contagious disease's bill had been disallowed the other day as interfering with the Dominion quarantine law. There was some danger of this being treated in a similar manner. He had brought it in out of deference to the country members, but they must not blame him if it was disallowed. Second reading carried.

Hon. Mr. Robson moved the second reading of the bill to recompense members of the mining commission. He knew the question had been raised as to the propriety of employing, on a matter of this kind, a member of the Legislature. There were, however, numbers of instances of this kind in this and other countries. It was only fair to refund the expenses of the member on the commission.

Hon. Mr. Beaven said the question had already been discussed at some length. He then proceeded to review the debate of the other day on the subject. He opposed it on principle, and held that it was a violation of the constitution and was calculated to undermine the independence of members. He was very much disappointed with the work of the commission.

Hon. Mr. Robson said that even if the member for West Kootenay had not been a member of the House, he would have been appointed on the commission owing to his being so well qualified on the subject of quartz mining. He considered the work done by the commission was very valuable.

It being 6 o'clock the House rose for recess without finishing the discussion.

EVENING SESSION.

The House met again at 8 o'clock.

In continuing the debate on the second reading of the Mining Commission Bill, Mr. Hunter said that the question was, whether the Government had violated the Constitution. He thought not. They simply asked the member for Kootenay to act without promising him any pay; in fact he had been given to understand that he was to have nothing for his services. The House was simply asked whether he was to be recompensed for his services or not. It was a question for the House to decide. The Mining Act itself was well worthy of the gentlemen composing the commission, and they were perfectly qualified on mining matters.

Mr. Cotton said the question really was as Mr. Hunter said, whether the member for Kootenay could be compensated or not. By the Constitution he could not. In recording his vote against the bill he desired to cast no reflection on the member for Kootenay West. He felt he would be voting against the spirit of the Constitution if he voted for the bill. He thought they must look at the clause which forbade any member taking any emolument from the Government.

Mr. Brown said section 28 of the Constitution did not prevent them voting for the bill. In matters of this sort he was more inclined to act up to the spirit rather than the letter of the law. This was a case where they could go a little outside of the strict letter of the law. The intention was to prevent any member from being in the pay of the Government. The member for West Kootenay was asked to come down and sit on the mining commission. He accepted it on the understanding that he was not even to have his expenses paid. The district of West Kootenay was one where the mining question was the great issue on which the gentleman was returned to the House. If he accepted the position he must incur a great deal of expense, but if he had refused he might have been run out of his constituency. When it was found that the expenses and loss of time largely exceeded the anticipated amount, he (Mr. Brown) held that under the circumstances this should be paid back to Mr. Kellie. On several occasions it had happened at Ottawa that members through sickness or some other cause were detained from taking their seats for more than half the session and yet drew allowance for the whole session. This bill should be supported as a simple matter of justice to the member for Kootenay.

Mr. Croft said instances had happened in England where members of the House had been paid for serving on military commissions, and he did not see why in that case a member here could not sit on a mining commission.

Mr. Keith said from his personal knowledge Mr. Kellie came down expecting to be here two or three weeks and the work was found to occupy three months. He thought it only right that he should be recouped for his expenses.

Mr. Foster did not see who else they could put on the commission in preference to the member for West Kootenay who was from a district where the mining question had the greatest prominence. He took the view that the House not the Government were doing this and felt himself quite justified in voting for the bill.

Mr. Baker took the same view of the matter.

Mr. Hall said he had heard that the district of Kootenay was loud in its praise of the way in which the mining commission work had been done. He would support the bill.

Mr. Semlin said that the contention that the Government were not doing this was wrong; a private member had no right to bring in a bill of this kind. It had to be done by the Government. The object of the clause in the constitution was to prevent the Government from extending pecuniary benefits to the members of the House. In passing the bill they would make a great breach in the constitution, and he would vote against it.

Mr. Smith supported the bill.

The second reading was carried on the following division:

For—Messrs. Kitchen, Smith, Brown, Forster, Keith, Baker, Robson, Davie, Vernon, Stoddart, Booth, Hall, Nason, Croft, Hunter, Anderson.

Against—Semlin, McKenzie, Sword, Cotton, Beaven.

Hon. Mr. Davie moved the second reading of the Act to amend the Civil Service Act. This was a bill to repeal a relic of barbarity. The hours of the printing office were inflexible whether work was to be done or not. There were times when work had to be done beyond hours, and it was only just when work was slack these hours should be reduced and not be inflexible. This bill provided that in the summer months the office hours could be fixed by the Provincial Secretary. This was to allow the hours to be shortened in summer months when work was slack. The bill also did away with the title of Surveyor-General as applied to the Assistant Commissioner of Lands and Works, as in conformity with the land laws of this session it was intended to separate the duties.

Hon. Mr. Beaven did not see where the barbarity of the present act existed. The printers worked only nine hours a day with a half holiday on Saturday. He himself had wanted the eight hour system applied to government work at the beginning of the session.

Mr. Keith said he was glad to vote for any measure that would go in the direction of reducing the hours of labor to eight hours and trusted that in time this would be in force all over the Province.

Mr. Semlin said the bill simply gave the Provincial Secretary the power of fixing the hours of work in the summer months, but said nothing about reducing the hours of work.

Hon. Mr. Robson said there was a slack season in the year and the Government came to the conclusion that it was not necessary to keep these men pent up in the printing office when there was not much work to do. He knew that standing nine hours a day sticking type was hard enough work. They did not ask to relax the hours when there was a press of work; but only when it was slack in the summer season.—Second reading carried.

Adjourned committee, Municipal bill, Mr. Hall in the chair. The House, after consideration, rose, reported progress, and asked leave to sit again.

Report Free Libraries bill was adopted. Bill read a third time and passed.

It was decided to sit again on Saturday.

The House adjourned at 11.30 p.m.

THE CRY OF MILLIONS

OH, MY BACK!
STOP IT NOW,
SOON IT WILL BE TOO LATE.

I have been troubled many years with disease of the kidneys and have tried many different remedies and have sought aid from different physicians without relief. About the 15th of April I was suffering from a very violent attack that almost prostrated me in such a manner that I was bent over. When I sat down it was almost impossible for me to get up alone, or to put on my clothes, when kind Providence sent Dr. Henley, with the OREGON KIDNEY TEA, to my hotel. I immediately commenced using the tea. It had an almost miraculous effect, and to the astonishment of all the guests at the hotel, in a few days, I am happy to state, that I was a new man. I will recommend the tea to all afflicted as I have been.

A SOLID INVESTMENT

The intended improvements in the neighborhood of Oak Bay Avenue are bound to increase the value of real estate along this street, from 25 to 35 per cent. within the next three or four months. The Tramway will be in operation within the next ninety days, and many other improvements that are about to take place, are bound to bring this property to the front.

Lots ranging from $275 to $500 are now on the market, on very easy terms, and we can recommend them to intending investors as a solid investment. The best bargains in this neighborhood are in our hands exclusively.

Cheap sideboards and bedroom suites at Hastie & Erskine's.

GILMORE AND McCANDLESS

CLOTHIERS & HATTERS

Two more cases black worsted suits to hand yesterday. These are solid worsteds, warranted to wear and retain their color. Only $16 a suit.

Another line of men's Tweed Suits at $10. This is a low figure, but the suits don't look like it. They are good value for more money.

Our boys' suits are nearly complete. We have an immense range at our usual low prices.

In men's and boys' pants we show the largest range in the city. Our silk worsted stripes at $5.50, 6, and 6.50 are beauties, and only need to be seen to be appreciated.

The fact that we alter and press suits sold here without extra charge is not to be overlooked by those wanting a good ready-made suit.

There is no doubt but we are doing the Clothing Trade of the Town.

Our stock of mens' suits from $5 to 15 is the largest ever shown in British Columbia.

THE CHINESE AND GIANT POWDER.

The Colonist is afraid, apparently, that Mr. KEITH'S bill stands some chance of passing, and demands that if the Chinese are to be excluded from coal mines on account of their incorrigible ignorance, so shall white men. It would have a commission of "competent men" (retainers of the coal barons, probably) inquire into the matter. We can inform the Colonist that no commission of really competent men of approved experience can be found who will agree that the Chinese as they average may safely be trusted to work underground. The difference between whites and Chinese as we endeavored to show yesterday, as regards appreciation of danger and the faculty of nicely calculating to what extent danger may safely be tempted, is constitutional. Men who were brought up in a rice field, and whose ancestry for generations were brought up under like circumstances, cannot be made to rightly apprehend the conditions of a coal mine and to realize that giant powder is exploded by concussion instead of by a spark, as in the case with black powder. The writer has seen Chinese whose experience with giant powder covered the space of two years, tamping "plug holes" in bowlders with a bar of iron driven by an eight-pound sledge. This is a piece of business white men emphatically decline to undertake. White men will tempt Providence, but not with a piece of iron and a drill hammer, with a stick of giant powder at the bottom of a "plug hole." And why was it that these Chinese, with two years' experience with giant powder, thus jeopardized their lives? It was because they desired to pulverize the bowlders so that the debris might be handled easily. In exploding a bowlder too severely the debris flies in every direction, which necessitates the removal some distance away of the men who are working near, and this means loss of time. Again, the shallower the hole, the less time it takes to drill it. Hence, the "rock foreman" who understands his business, seeks only to reduce a bowlder to handling size, i.e., reduce it to sizes that may be handled with a crowbar. But the Chinese abhor crowbars. They have poor stomachs for hard lifts. Crowbars, in their estimation, are inventions of the devil, and nobody but "Melican men" are fools enough to use them. But a shallow hole well tamped often suffices to reduce a bowlder to sizes to suit the Chinese idea of what is the proper kind of a lift, and hence, as has just been related, the iron bar sledge hammer tamping process. But what is more singular still, in this connection, if any body gets hurt or killed, it is not attributed to carelessness but to fate, or the intervention of some evil spirit. The devil was the cause of it, not recklessness, and so the Chinese profit little or nothing from experience. Now, if the Chinese at railway work will chance their lives in the way mentioned that they may escape physical labor, and that despite the warnings of and in disobedience of orders, what may we not expect of them working underground. We leave it to the Colonist and the Attorney-General to find out, and we recommend that they seek the light they profess to want by working a few months side by side of the people they love so well.

EDITORIAL NOTES.

The Toronto Telegram, a Conservative paper, says:—The noble occupant of Rideau Hall is perhaps the most fortunate man in America, especially where his expenses are concerned. Everything possible that a wealthy and hospitable nation could do has been done to make the Governor-General feel perfectly at home, and if he is not satisfied there is nothing for us to do but give him a clear deed of the country and buy Newfoundland for him as a summer resort. In the first place Baron STANLEY of Preston receives $486,666 a year and his washing. His under secretary, L. A. J. CALLATIER, receives $3200; chief clerks, $4,200; first-class clerks, $3600; second-class clerks, $9850; third-class clerks, $8600; messengers, $1320; private secretary, $600, and adjusted salaries make the total $327,982. These are a few little trifling items compiled for the benefit of posterity; but posterity may well understand that Rideau Hall costs the country, everything taken into consideration, within a stone's throw of a cool million.

Yesterday, the men in the employ of the New Vancouver Coal Company, who are working on Protection Island, sinking the new shaft, took possession of the new cabins (which have been built for them) for the first time. It was most necessary that they should live on the island, as otherwise they would be compelled to row across the harbor in all kinds of weather, and sometimes it is extremely rough. A boarding house has been started there, so that those who do not care to "batch" will enjoy life on the island equally as well as though in the city.

The Stewart-Smith wrestling match will take place on Saturday night.

GUARDIAN ANGELS.

Professional Protectors of Bibulous Gentlemen.

A Useful Institution Not Altogether Confined to the Gay French Capital—An Expensive Luxury.

A correspondent in Paris recently discovered in the cafes a class of attendants which he described as a bizarre novelty in Parisian business methods. He said that these attendants were known professionally as "Guardian Angels." They have become, he wrote, quite numerous in the more thickly populated quarter of the French capital. The attendants get their title because they are called upon to keep watch and ward over and insure safe conduct home to working people who frequent the smaller cafes, and without the protection of the angel might fall a prey to the petty criminals who lurk in the streets at night to rob inebriated working-men and other more or less helpless wayfarers.

New York, says the Sun of that city, has for a long time had its counterpart of the Parisian guardian angels. He is a curious, entertaining and beneficent servant of the public that was brought into existence by the amazing growth of hotel life in this town during the last few years, and by the increase in the number of the fashionable restaurants. Here, however, it is only these fashionable hotels and cafes which can support the luxury of angels. They are too expensive a feature apparently to justify the proprietors of the saloons in the tenement districts in employing them. The guardian angel of Gotham is an affable and well-informed special police officer detailed by the police commissioners, and reporting regularly to Acting Superintendent of Police Byrnes. He works harmoniously with the other serviceable attendant of the swell cafe who is called the bouncer. The bouncer is a professional boxer whose duty it is to maintain order and to get obstreperous visitors out of the establishment without any fuss or feathers and without attracting too general attention. The angel, on the other hand, makes it his business to see that no harm befalls the cafe or hotel patron who has become a little too convival for his own good, and needs the assistance of just such a guide, philosopher, and friend as the angel is to keep him from parting with his valuables.

"The idea of having a guardian angel," said the angel of the Hoffman House, "may strike men about town as something of a practical joke, and they may believe that the angel is a myth. But they are mistaken, for ain't I here to prove that guardian angels are regular institutions? Many men in this town are thankful for the help of the professional angel. We see that they are sent safely home if they get too much aboard, or we get them accommodations at the hotel if they aren't able to get home. We take them to a Turkish bath and straighten them out before putting them to bed, and in numerous other ways perform a service that a square man isn't very apt to forget, which I happen to know not one in a hundred fails to remember in a substantial fashion on other days besides Christmas."

A striking illustration of the opportune serviceableness of the guardian angel was furnished recently at the Hoffman House, just before a public reception. A handsome man, dressed in black, came from the private dining-rooms and staggered along the tiled corridor. His face was flushed with wine.

"Heavens!" cried the angel, with a start as he caught sight of the guest, "we must get that man to a room quick."

The man was hustled into the elevator and taken to a room in a hurry.

"What's the excitement about?" asked a bystander when the angel returned.

"A good deal more than you think," returned the little guardian. "That man would be disgraced in his profession were he to be seen in that condition at the reception upstairs. He is one of the best known professional men in this city. The nature of his calling makes it imperative that he should never be seen in public under the influence of wine. It was a narrow escape, though. But he's all right now. Nobody will know any thing of it. He will be straight as a string again when he leaves for home, depend upon it."

The existence of the professional guardian angel is a boon to many men of means who have a habit of getting occasionally too convivial to take care of themselves. They depend upon the friendly surveillance of the angel, and give themselves up freely for the time being to the delights of the flowing bowl.

"Just once in a thousand times," said a professional angel, "does a friend who does this service for a fellow citizen fail to get the cab hire as soon as he reaches his charge's home. A man mean enough to back out of paying a fare back under such circumstances is too mean to spend enough to get so full. Sometimes we don't collect at the man's house at all. We just escort him in and say in an explanatory way, 'Mr. Pillycarp ate something at dinner that disagreed with him and couldn't get home before, ma'am, but he's all right now; or he will be all right in the morning.' The next time we meet the good fellow a word is enough to bring the incident back to his memory, and he pays the cab hire promptly. Often a man will be exuberantly generous. He'll want to crack a bottle of wine with us, and he hands a five or ten dollar note over, with the remark: 'Go bet that on the horse you think will win, with my compliments and best wishes.' Men like that don't forget such a favor. They talk about it to their friends, and if their friends chance to feel like having a little personal jubilee on their own hook they come and get the professional angel to lend his good services as protector and friend during the hilarious experiences of the jubilee. Yes, sirce, the angel is an institution that it would be impossible to dispense with in these civilized days, whether we are in the Paris of France or right here in the Paris of America."

NANAIMO NEWS.

A Burglary Frustrated—Addition to Hospital.

NANAIMO, April 9.—A burglar entered a house kept by the Misses Ho on Tuesday night and caused the la much alarm. They had gone fo walk after their day's toil was finish and on their return they noticed light in the house. Wondering wha was, they crept cautiously toward window, and then they noticed shadow on the blind. They were frightened to enter. Presently t noticed the shadow in the bedroom, as the blind was partly up, they plai observed a man ransacking the bure They then went to the neighbor op site, Mr. J. Renwick, and gave alarm. That gentleman and his immediately proceeded to the hou but in doing so made so much no that the burglar made a hurried e out by the back way. The ladies st that he only succeeded in getting $1 as they had all their valuables up them.

HOSPITAL IMPROVEMENTS.

The hospital board of trustees visit that institution yesterday, for the p pose of deciding what improvemen were required there. After a consul tion it was decided to commence once the new wing, which will cons of more commodious quarters for t steward and matron, a new kitch and a large ward for the treatment ladies. The contemplated improv ments will cost quite a sum, but t trustees hope to have sufficient fun without appealing to the public for a

A NEW COURT OF FORESTERS.

A meeting was held in the Ope House last evening for the purpose starting a new court of the Ancie Order of Foresters. The meeting w largely attended and consisted prin pally of the younger element of t city. The new lodge will act in ha mony with the one that is already e tablished, and it is anticipated that t new lodge will grow rapidly, and ma of the rising generation will be induce to join. Quite a number joined la evening who have not previously l longed to any of the lodges.

LITTLE HAPPENINGS.

One of the principal lady residents this city will be married at St. Paul church on the 18th.

The remains of Hugh McLean hav been brought from Seattle to this ci for interment.

GIVING UP BUSINESS.

NANAIMO, April 10.—Turner & Flin real estate agents for Dewpney & Co of South Aberdeen, will leave Nana mo to-morrow. They found it impos sible to sell Gray's Harbor property although they have spent a considerabl sum in advertising the same. Nanaim people have been too well bled b agents for American property, and ar now rather shy of it. One real estat firm claims that if the Nanaimoite were offered property in New York they would be too scared to buy.

Y.M.C.A.

The Y.M.C.A. is flourishing success fully under the able management o Mr. Freure, the secretary, who during the time he has held that position ha studied the wants of the members an by his courteousness and kindness ha succeeded in inducing many new mem bers to join. The rooms are well kep and everything is in the best of order The library is well supplied, the lates addition being a complete set of Britan nica Encyclopædia, which is looke upon as a great acquisition. When Mr Freure first took charge the number o members were thirty-five; now they muster 148.

A SAIL BOAT CAPSIZES.

Two of Nanaimo's promising youths resolved to navigate the waters of the harbor in a canoe yesterday. They obtained a sail (as rowing involved too much hard work), which they hoisted, and soon were a considerable distance from shore. All went well until the youthful mariners attempted to return, but in doing so jibed the the canoe and capsized into the cold water. An old Indian saw their predicament and went to their rescue. The boys aver they will not take a canoe for sailing purposes again.

TOO MUCH LABOR.

About six months ago it was difficult to obtain a man to do any odd work outside of the mines, but at the present time the city is over-run by laborers. This is due to the fact that so many are induced to come here, under the impression that they can obtain work at Wellington. According to some of the men's statements, it would appear that they are not anxious to work, but in reality the Wellington company have had sufficient to do with unpractical miners.

AN IMPROMPTU CONCERT.

An Impromptu concert was given in St. Paul's Institute last evening in which about thirty-five of the members took part. The concert consisted largely of instrumental music, but a few good songs were also rendered. The evening was spent in a most delightful manner and the members promise to give themselves this kind of pleasure a little more often. A concert will be given in the Institute next Thursday in aid of the funds of the Institution.

Copperine.

Read what no less an authority than Hardware has to say about our townsman A. W. Spooner, Esq.:

"Nearly every manufacturer of goods of reputed fine quality, is doomed to suffer annoyance from that carbuncle on trade, known as the infringing shyster. But the rule holds good that 'whatever we make depends entirely upon what we are for its quality.'"

"A genuine good article is made by Alonzo W. Spooner, of Port Hope, Ont., covered by letters patent in Canada and the United States. Every hardware man in the Dominion knows the reputation of this man and his copperine box metal, which has been won by hard fought battles against babbitt metal and hot boxes, until now such things are scarcely known, and copperine is with us to stay. Why, the test in our Toronto Water Works engines, being the largest and heaviest in the country, should satisfy any ordinary mortal of the everlasting wear of this metal. Four years of steady grind night and day has made no perceptible variation in the bearings, and they are there to show for themselves; perfection itself. The season is at hand when many wheels will be unloosed from winter's grasp; even now repairs are the order of the day. Therefore, it's a good time to stock up with this metal. It should be borne in mind that copperine is well advertised for the trade. It's a good seller, and sure to satisfy everybody. It will be called for by the best class of trade, because it will stand their work. Engineers, machinists, saw-millers, grist-millers and agricultural works, can get nothing so good. Its the best in its line and worthy of patronage."—E. G. Prior & Co., agents, Victoria, B. C.

The C. P. N. company's steamer Danube arrived at Nanaimo to-day, from the north, and will be here to-night.

Steamer Maude on her return from Alberni will go over to Tacoma for the machinery now waiting there and consigned to the Union Colliery at Comox.

Tug Lorne returned from the cape this morning after having taken the bark Bundaleer to sea. She will bring the Archer in to-day and then leave for Nanaimo to take the bark Seminole to sea.

Severed His Connection.

In another column will be found a notice of dissolution of partnership that many Victorians will be sorry to read. It contains the information that Mr. C. E. Mallette has severed his connection with the firm of Bourchier, Croft & Mallettee, which firm will hereafter be known as Bourchier & Croft. Mr. Mallette, since he has been in the city, has made many friends who will regret to hear that he intends leaving Victoria to take the position of general manager of the Port Angeles Southern Railway. A clause in the company's rules makes it imperative that the manager shall not be engaged in any business, therefore Mr. Mallette's retirement.

Kind Treatment.

The hackmen who were kept out all night on account of the ball speak flatteringly of the ball committee, who took them into supper and made their extra work a pleasure. After having been out all day it is rather hard on the men to stay up all night, consequently a little kind treatment, such as was [illegible] last evening, is gratefully received.

Arrived at 'Frisco.

THE RING.

CHICAGO, April 9.—Billy Myer's backer, Alf. Kennedy, recently offered to refer the dispute concerning the forfeit in the Myer-McAuliffe match to three authorities, whose decision should settle the ownership of the $2000 in Bud Renaud's hands. Jimmy Colville, of Boston, represented McAuliffe in making up the match, and Kennedy's proposition was explained to him in Boston Monday. Colville intimated in reply that Kennedy had no grounds for claiming McAuliffe's forfeit. "Kennedy does not know whether McAuliffe intends to fight or not," said Colville, "and I will not be surprised to find McAuliffe's backer post every cent of the $5000 stake. The men may not fight on April 15, but you can rest assured that McAuliffe's part of the stake money will be put up."

Kennedy is anxious to have the matter settled satisfactorily, and for that reason he has written to Colville, offering to allow the Chicago Herald, Police News and New York Clipper to decide whether or not he is entitled to McAuliffe's $1000. If Colville finally refuses to settle the matter by arbitration as suggested, his reputation as a fair-minded sport will suffer greatly.

THE TURF.

SAN JOSE RACES.

SAN JOSE, April 8.—The horses ran in the mud at the second meeting of the Blood Horse Association to-day. On account of the muddy condition of the track Liverstone, Tycoon and John Treat were withdrawn in the Four Hundred stake, and Mero had a walk over.

Cliff House stake, three-quarters of a mile, for all ages. Starters: Acclaim, Applause, Naicha B., Alfaretta, Esperanza, Initiation, Fearless. Initiation won in 1:19½, hands down; Applause, Alfaretta, Fearless, Naicha B., Esperanza and Acclaim in the order named.

Gossip Row stake, five-eights of a mile, 2-year-old—Brown Idle, Pescador and Annie Lewis started; Pescador won in 1:05½, Brown Idle second.

The last event was a selling purse, five-eights of a mile, heats. Starters: Minnie R., Revolver, Inkerman, Gambo, Idaho Chief. First heat—Gambo lead, but near the finish bolted and Revolver won. Revolver won the second heat easily, Idaho Chief getting a place of honor.

The track is expected to be good to-morrow.

BASEBALL.

OPENING OF THE BASEBALL SEASON.

ST. LOUIS, April 9.—Twenty-five hundred people to-day attended the opening game between the Browns and Cincinnatis. After the sixth inning, Cincinnati tried to delay the game, allowing the Browns to score eight runs, five of them earned. The umpire ordered them to play ball, but they refused, so he gave the game to the Browns by 9 to 0. The score stood at the end of the sixth innings, 7 to 7.

PHILADELPHIA, April 9.—Washington won the opening game after an interesting contest. Score: Athletics, 8, Washington 9.

BALTIMORE, April 9.—The American Association season opened to-day. Baltimer 11, Boston 7.

LOUISVILLE, April 9.—The Association champions in the opening game set the pace for the other clubs by snatching victory from defeat. Louisville 7, Columbus 6.

LACROSSE.

There will be a special meeting of the Lacrosse club this evening to confer regarding delegates to the convention at Westminster next week. The meeting takes place in the offices of Hall & Lowe.

CYCLING.

It would be a very great convenience to those riders not thoroughly familiar with the route if Mr. Piper would have some marks placed by which to discern the proper route. Paper distributed as in a paper chase would about answer the purpose, from, say the Driving Park out. Riders who have never travelled that road will lay in a store of wind guaranteed to last ten miles.

TO-MORROW'S ROAD RACE.

If the weather keeps its promise for a day or two at least to-morrow's road race will be interesting. The rain has hardened down the roads, and prevented the possibility of any great extent of dust rising to make the road disagreeable. The state of the road is not velvety but then its fairly good all through. A start will be made at three o'clock sharp from Mr. Piper's establishment on Yates street, to Cadboro Bay park and return, clear riding all through.

JUDGE LYNCH AGAIN.

The Murderer of Policeman Harper Hung to a Maple Tree.

KENTON, Ohio, April 10.—Wm Bates, who murdered Policeman Harper on Tuesday night of last week, was taken from jail by a mob of about 50 men at 2 o'clock this morning and hung to a maple tree near by. The mob gained an entrance to the jail by breaking down the door, which awakened Sheriff Nevill, who hurried down stairs with a revolver. A dozen men met him at the foot of the stairs and thrusting four revolvers in his face, demanded the jail keys, saying they wanted to get Bates to hang him. The sheriff refused to get the keys, not having them with him. They found the keys in the adjoining room and opening the jail doors got Bates, and only gave him time to put on his pants and a pair of slippers. They took him out and hung him to a maple tree on Wayne street, near North street, about fifty yards from the jail. The mob was well organized, and all wore black masks except one, which was white, apparently the leader. No noise was made and all spoke in whispers. The work was quickly and systematically done, and not more than 20 minutes elapsed from the time the door was broken until Bates was dangling between earth and sky. He did not make any fuss, only groaned a few times, when being lead from the jail cell. The mob dispersed as quickly and silently as it gathered. All went different directions; nobody saw the hanging except the lynchers. Some guarded the sheriff, while others stood on the street corners and stopped pedestrians from approaching. Who the mob were and where they came from is a mystery. The coroner is holding an inquest.

WITHOUT A FLAW.

THE CHARITY BALL PASSES OFF IN A GRAND MANNER.

A Large Attendance—The Hall Handsomely Decorated—Good Music in Harmony With a Good Time—The Ladies Deserve Credit for the Success of the Affair.

The great event of the season, the charity ball, which has been the talk of society circles for months past, came off last evening without a flaw in connection therewith. Shorly before nine o'clock, carriages began to arrive at Assembly Hall, laden with handsomely dressed ladies and their escorts, all eager for the enjoyment in store. The ball room was soon filled, showing that the ladies had disposed of a large number of tickets, and the scene that those present had displayed excellentt taste in the selection of their costumes. Every dress seemed to be in harmony with the occasion, and the pretty colors made the room look handsomer than ever. The hall, too, had been handsomely decorated with flags, banting and evergreens, and looked as pretty as possible when lighted up and filled with nearly 300 happy people. This large attendance only represented part of what is to be done for the poor and the sick, for the proceeds of the ball are to be handed over to the B. C. Benevolent Society. These people have to thank Mrs. A. J. Smith, the president, and Mrs. Young, the secretary, of the club, who, with their numerous committees, have been working hard for what they achieved—a grand success. No effort has been spared by them for weeks past to make the ball an enjoyable one, and they may now justly feel satisfied with the result, as every one who attended had a good time from the first to the last dance.

At about 9.30, the ball was formally opened with the grand march, led by His Worship Mayor Grant and Mrs. A. J. Smith, which was followed by the first set of lancers, in which 150 couples took part, every one having arrived on time. The leading set was made up of Mayor Grant, M.P.P. and Mrs. A. J. Smith, Thos. Earle, M.P. and Mrs. Milne, Dr. Milne and Mrs. Young, and D. H. Ross and Mrs. Earle. From this until the end of the programme of twenty-three dances, the musicians were kept busy, everybody going in for a good time, even the older ones present taking pleasure in sitting on the easy chairs arranged for them and watching the dancers enjoying themselves. All present were as sociable as possible, which went a long way towards putting the ball down on the list of events that will not be forgotten for a long while. The non-dancers had amusement arranged for them in the card room, where they passed away the evening in their own pleasant way.

The supper room at Assembly Hall never looked better, nor have on any occasion the tables been spread more tastefully than they were last night. The ladies had spent a good deal of time on the refreshment room, and they may justly claim the honor of having the best laid tables ever placed before an assemblage of dancers in Victoria. The room also was nicely decorated and everything passed off so smoothly that the most critical could not have found fault. Everything in the dining-room had been arranged by the ladies themselves and they deserve all the praise that can be bestowed upon them. On one side of the dining-room was a counter, over which any kind of temperance drink, cool and refreshing, could be obtained and after the ball had fairly begun few were loath to take advantage of this consideration on the part of the ladies.

Mr. Pferdner's orchestra of nine pieces furnished the music, and the players, like everyone else, seemed to want to make the ball a success and they excelled themselves in doing so. The music was all that could be wished, which, together with a good floor and light hearts, made dancing a pleasure. The clock had struck three before the medley had been played, and before the hall had once more been deserted morning was near at hand.

The stewards Mr. Thos. Earle, M.P., Dr. G. L. Milne, M.P.P., and Messrs. Joshua Davies, Dixi H. Ross, W. Dalby, W. H. Ellis and W. J. Quinlan, were as attentive to their duties as the rest of those connected with the carrying out of the ball so that a good idea can be obtained of the success with which it met.

A GHASTLY DISCOVERY.

A Chinese Leper Found Wasting Away on the Most Frequented Part of Beacon Hill.

For some weeks one of the lepers has been missing from Chinatown, and notwithstanding the fact that a rigorous search is said to have been instituted, no trace of him could be found. That he was a leper was beyond doubt, the disease being present in its most repulsive sense. Of course no reliance could be placed on the statements of the Chinamen who professed not to know of their countryman's whereabouts. Some said one thing, and some said another, while in the whole of the statements no two agreed. What added to the difficulty of tracing the Chinaman was the professed or real inability of the rest of the Chinamen to speak English at all intelligibly. The same difficulties exist with regard to the legless Chinaman, who was also a leper. He, too, has disappeared, no one knows where.

The other Chinaman came to light very unexpectedly yesterday morning at Beacon Hill. The Clover Point earthworks, near where the rifle ranges are located, were made the seaside domain of the Chinaman. Whether he went there or was taken there is not known, but that he lived there for some considerable time is undoubted; while many hundreds of people must have passed the place day after day seeking pleasure and fresh air.

The Celestial got into one of the small buildings where shot and shell had one time been stored, and took up his abode. He used the conventional Chinese cooking stove, a coal oil can, and must have lit his fire only at night. A barrel, an old mat for a bed, and this stove formed his household effects, and here he lived on rice and other Chinese messes, the remains of which were to be seeen when he was discovered yesterday. Some one must have supplied him regularly with food, because when found he was not in a state to walk into town for it, and he dare not beg in the neighborhood.

Mr. Joe Haney and some C Battery men were yesterday commissioned to remove a little house that has stood for a long time in the reserve plat with the guns, and one of the men required something out of the shell store. He got the door open, and recoiled with horror at the sight which met his gaze. There was the poor unfortunate leper, crouching inside, and looking more like some terrible being of another world than a mortal blessed with body and soul. Half not the sight been so repulsive, the stench that emanated from the place would have driven away the strongest man living. It was sometime before they could approach the shanty, and even when the fresh pure air had permeated the place it was not at all sweet. The police were communicated with, the man removed and the place demolished.

What appears the strangest part of the proceeding was that this man was brought into town again in all his disease, and placed among his fellow lepers. The Chinese hospital would not take him in, but one of his countrymen is endeavoring to raise a subscription to send him away—where?

Wherever he is placed there will be objection raised. A prominent gentlemen said to-day, that the government should procure some small island and place these lepers on it. A fee of $50 a head is put on all Chinamen, and the government pockets it. Nothing more is done, and the Chinamen are allowed to live here as they choose in the midst of desease and death.

It now remains to be found where the legless man has gone.

BEWARE THIS ROCK.

An Hitherto Unknown Danger to Shipping Made Public.

SAN FRANCISCO, April 8.—Captain Delahanty, of the United States navy, commanding the United States coast survey steamer Hassalo, has received authority from Professor Mendenhall, superintendent of the Coast and Geodetic Survey, to make known his discovery of a dangerous rock lying in ten fathoms of water a few miles southeastward of Point Sur lighthouse. This danger has only ten feet of water upon it and lies a short distance northwestward of the north point of Twin Peaks cove. It is possible there are other dangers in this vicinity, and vessels should keep a sharp lookout.

WHITE ROCK, B.C.

This Townsite is situated on Semiahmoo Bay, and is the only deep water seaport between the International Boundary Line and Vancouver, B. C.

It will probably be the Mainland starting-point of the Victoria, Saanich & New Westminster Railway. It is now the outlet for the finest agricultural district in British Columbia.

The C.P.R. has made a survey of a line from Vancouver direct to this point. The Royal City Planing Mills Company has built a substantial wharf here, and has established a lumber yard, which supplies the farmers of this district.

A handsome hotel has been erected and building is going on rapidly.

Several influential and far-sighted corporations have acquired large tracts of land surrounding this Townsite.

Water front lots can now be obtained at low prices.

To introduce this property, we are placing one block of lots on the market for disposal by monthly instalments at nominal figures.

CITY AND PROVINCIAL.

SAILING OF THE BEAR.

She Goes to Alaska to Transport the Court Officials.

The revenue steamer Bear, in command of Captain M. A. Healy, sailed early this morning for Ounalaska, by the way of Sitka. She will take the outside channel to Sitka, remaining there a few days, thence make the best of her way westward, a distance of 1400 miles, to Ounalaska and the seal islands. From Ounalaska she will return to Sitka with court officials and witnesses. From Sitka she comes to the Sound in June next, for provisions and coal. Then after communicating with the authorities at Washington City, sail again for the seal islands and the Arctic ocean, stopping to land supplies at Point Barrows.

While the services of the Bear were sufficient in former years by making one trip, it is now necessary for her to make two trips to aid the United States officials in getting from one part of the territory to the other.

The Bear has on board a year's supplies and 350 tons of coal, besides 40 tons in bags for Point Barrows.

The Bear is of 1300 tons displacement, bark-rigged. Her propellor is so connected with the shaft that it can be hoisted on deck and the vessel propelled by her sails alone; though she carries 40 day's steaming fuel, has a condensing compound engine, and by carrying 90 pounds steam she will develop a speed of 10 knots.

The following are her officers: Captain M. A. Healy; first lieutenant, John Dennett; second lieutenant, H. M. Broadbent; third lieutenants, L. H. Jarvis, H. A. Henderson; chief engineer, Horace Hassel; first assistant engineer, A. L. Broadbent; second assistant engineer, F. R. Faulkenstein; surgeon, S. J. Call. The captain is accompanied by his wife. The crew numbers 40 seamen and firemen.—Post-Intelligencer.

TO FILL A LONG FELT WANT.

A Turkish Bath to be Established in the Five Sisters' Block—Company Formed.

An attempt was made some time ago to establish Turkish baths in Victoria, but the scheme fell through for several reasons, the principal of which, was that the secret of success in such an undertaking was probably not known. That secret is that Turkish baths to be made to pay must be first class, and first class only, in addition to which they must be centrally located.

The building of the Five Sisters' block offers an opportunity for the institution of a first class establishment of this kind, which has not been overlooked by a few live men, who have combined themselves to fill this long felt want in Victoria. It has been a matter of surprise and disappointment to hundreds of health and pleasure seekers that there has been no Turkish bath in Victoria, whither so many tourists throng, not only in the summer months but even in the winter.

The Turkish Bath Company, limited, has just been formed to supply this want. Mr. Thomas C. Sorby is the secretary pro tem. It is the purpose of the company to lease extensive premises in the Five Sisters' block, 36 Fort street, and fit them up as Turkish baths, including private baths and a large swimming bath. This will be done on thoroughly scientific and sanitary principles, carried out under the supervision of a capable mind, and when completed, the establishment will be conducted on a basis that will ensure public support. A glance at the prospectus, which Mr. Sorby has in his possession, will show that every detail has been considered by the promoters with the most careful consideration as to cost, not pruning too much, nor sparing any necessary expense.

Mr. Sorby has also prepared plans for the establishment which are drawn in accordance with the appointments of some of the best institutions of this kind in the world.

The entrance is on 36 Fort street through a long and well lighted passage leading through folding doors into the bathing establishment proper, where are to be found the offices and private baths. Beyond this is the ante room of the Turkish baths where the bather will find suitable provision for removing the boots and out door garments before descending the wide and handsome staircase leading to the Frigidarum or cooling room. Here are to be found suitable rooms for undressing when, attired in a bathing robe, the visitor passes, under the guardianship of an attendant, into the Tepidarium. This is a spacious apartment, the floor and walls of which will be finished in handsome tile work. The room will be fitted out with marble benches, couches and reclining chairs, on which bathers may rest and prepare for the Calidarium, a decidedly hot chamber, in which one may possibly be able to remain five minutes. This is supplied, as the other rooms are, though in a less degree, with heated air which circulates through the entire establishment. From the Calidarium the bather goes into the shampooing room, and takes his turn under the nimble and muscular hands of the shampooer, after which he enjoys his spray bath, and comes out a new being, better and a cleaner man so far as the skin is concerned.

Those enjoying the possession of strong nerves will then take a plunge, not necessarily the fatal plunge, into cold water, and arise on the other side in the Frigidarium. Here he can recline at his ease and sip his cafe, or enjoy the fragrant weed, or if he please, he can retire into one of the cosy bedrooms and enjoy a sleep unknown for delicious restfulness except after a Turkish bath, and be called in the morning feeling a different man, and quite ready for breakfast.

Many of the leading men of the city have embarked in the enterprise, feeling certain that it will not only be a good investment, but a public good.

Bazaar and Concert.

Victoria West hall will on Monday be occupied by the ladies of St. Savior's church, who intend holding a bazaar in the afternoon and a concert and high tea in the evening of that day. The ladies have prepared many pretty things for the occasion, and a good programme for the concert, so that a thoroughly enjoyable and profitable time may be spent. The doors will be opened at 2 o'clock in the afternoon and the concert will commence at 8 o'clock. Both are under the patronage of the Lieut.-Governor and Mrs. Nelson.

Firemen's Drill.

The regular weekly drill of the firemen will be recommenced Tuesday evening next.

Empress of India.

The Canadian Pacific steamer Empress of India left Hong Kong on the 7th instant and is expected to reach Victoria on the 28th.

The Smuggling Case.

The case of Mons. Escalet, charged with having smuggled cigarettes in his possession, will come up in the city police court to-morrow.

Temple Emmanuel.

Services will be held in Temple Emmanuel this evening at seven o'clock. A lecture will be given by Rabbi S. Philo, who will take for his subject "How to Love a Fellow man."

The Sable Serenaders.

The Sable Serenaders are going to make a stir on Tuesday evening at the Victoria, judging by the array of talent and the preparations going forward. The performance is in aid of the Christ Church Cathedral building fund.

Salvation Army.

The Salvation Army will enter their new quarters, the old Metnodist church on Pandora street, about May 1. The officers look forward with pleasure to taking possession of so much more handsome and commodious premises.

City Police Court.

Mr. William Dalby J.P., occupied the bench at the city police court to-day in the absence of the magistrate, and he had the unpleasant duty of fining several very youthful drunkards, and a couple of older hands.

The Poor Old Beaver.

The Marine Department at Ottawa recently received a letter from Mayor Oppenheimer, Vancouver, requesting it to compel the owners of the steamer Beaver, wrecked at the Narrows near Vancouver, to remove the wreck. The Minister has declined to take any action. Mayor Oppenheimer pointed out that the Beaver was an eyesore to the community.

Tourist Spoons and Opera Glasses.

Mr. A. A. Clayton, of the Diamond Palace, Government street, has now completed and ready for inspection, a large stock of tourist spoons, suitable for souvenirs of Victoria. In the bowls of the spoons are etched scenes of the Gorge, Dunsmuir Castle, Mount Baker, and other pictures of Victoria scenery. He has also just received a consignment of beautiful opera glasses, in pearl and Russia leather, which are pronounced the finest ever imported to this city.

Mothers!

Castoria is recommended by physicians for children teething. It is a purely vegetable preparation, its ingredients are published around each bottle. It is pleasant to the taste and absolutely harmless. It relieves constipation, regulates the bowels, quiets pain, cures diarrhœa and wind colic, allays feverishness, destroys worms, and prevents convulsions, soothes the child and gives it refreshing and natural sleep. Castoria is the children's panacea—the mothers' friend. 35 doses, 35 cents.

Sailing Without Licensed Pilots.

Officers and members of the Masters & Pilots' Association have recently been making investigations in regard to vessels that ply the Sound. As a result they claim to have discovered several steamers without licensed pilots. The United States marine laws require every vessel to have a master and pilot, but in certain cases these two officers may be united in one, provided he is capable and can secure both a master's and a pilot's license. It is further required that the license shall be framed and placed in a conspicuous position on the steamer, where it may be seen by passengers. Three vessels in particular are mentioned by the members of the association on which no pilot's license is to be found, and it appears that the master is acting as pilot, but without a pilot's license. It is also claimed that several boats are not properly equipped for the number of passengers carried. The matter has been brought in writing to the notice of the United States authorities for investigation, and in the meantime the association will look after the matter on its own account.—Seattle Telegraph.

Dyspepsia

Intense Suffering for 8 years—Restored to Perfect Health.

Few people have suffered more severely from dyspepsia than Mr. E. A. McMahon, a well known grocer of Staunton, Va. He says: "Before 1878 I was in excellent health, weighing over 200 pounds. In that year an ailment developed into acute dyspepsia, and soon I was reduced to 162 pounds, suffering burning sensations in the stomach, palpitation of the heart, nausea, and indigestion. I could not sleep, lost all heart in my work, had fits of melancholia, and for days at a time I would have welcomed death. I became morose, sullen and irritable, and for eight years life was a burden. I tried many physicians and many remedies. One day a workman employed by me suggested that I take Hood's Sarsaparilla, as it had cured his wife of dyspepsia. I did so, and before taking the whole of a bottle I began to feel like a new man. The terrible pains to which I had been subjected, ceased, the palpitation of the heart subsided, my stomach became easier, nausea disappeared, and my entire system began to tone up. With returning strength came activity of mind and body. Before the fifth bottle was taken I had regained my former weight and natural condition. I am today well and I ascribe it to taking Hood's Sarsaparilla."

ARE THE LARGEST COAL PRODUCERS ON THE PACIFIC COAST.

THE NANAIMO COAL (Used principally for Gas and Domestic Purposes).

THE SOUTH FIELD COAL (Steam Fuel).

THE NEW WELLINGTON COAL

(House and Steam Coal) are mined by this Company only.

THE "NANAIMO" COAL gives a large percentage of Gas, a high Illuminating Power, unequalled by any other Bituminous Gas Coal the world, and a superior quality of Coke.

THE "SOUTH FIELD" COAL is now used by all the Leading Steamship Lines on the Pacific.

THE "NEW WELLINGTON" COAL, which was introduced early in the present year, has already become a favorite fuel for domestic purposes. It is a clean, hard coal, makes a bright and cheerful fire, and its lasting qualities make it the most economical fuel in the market.

The several Mines of the Company are connected with their Wharves at Nanaimo and Departure Bay, where ships of the largest tonnage are loaded at all states of the tide. Special dispatch is given to Mail and Ocean steamers.

The leper who was found at the hill yesterday was placed with the other lepers in a wretched hole-in-some premises on Fisgard street. To-day the only answer that could be obtained was "him go out yesterday," "him gone way" and other broken answers.

The World Enriched.

The facilities of the present day for the production of everything that will conduce to the material welfare and comfort of mankind are almost unlimited and when Syrup of Figs was first produced the world was enriched with the only perfect laxative known, as it is the only remedy which is truly pleasing and refreshing to the taste and prompt and effectual to cleanse the system gently in the Spring time or, in fact, at any time and the better it is known the more popular it becomes.

John Miller, charged with larceny, and Wm. Leferne, charged with assault, were remanded for a couple of days.

THE WESTSIDE

TUESDAY, April 7th, 1891.

★ THE WESTSIDE. ★

"This planet is much like a clam-bank, I guess,
Where we all go a-clamming with varied success;
You must get the best clams, be no shirk and no sham,
And then toot your horn, or you won't sell a clam.
—Soc. Vol. I, Chap. iv.

Appreciating the wisdom thus displayed by the ancient seer, and being fully convinced that we have the VERY NEWEST AND BEST DRESS GOODS that will be on sale in Victoria this Spring, we cordially invite an early inspection of the same.

DRESS PATTERNS (mostly one only of a kind) in beautiful NEW SHADES, and in almost endless variety of styles.

Mantles, Jackets, Capes, Etc.

The variety in PRICE, STYLE and MATERIAL is too great to enumerate in detail. However, we probably show the most complete assortment in the city, and all of this season's manufacture. We only keep reliable, well-made, good-fitting goods, which are offered at very moderate prices.

Waterproofs, Dustwraps, etc., direct from the manufacturer.

Shawls and Rugs, suitable for tourists.

Hosiery and Gloves of the best makes, and a full assortment of New Spring Goods, specially imported with especial reference to the wants of our patrons.
